## How does the hurricane season impact the Costa Rican Investments?

*"Look, Honey...I've organized our hurricane supplies in alphabetical order by storm name!"*

**USA Today Reports.** "Early September is the height of the hurricane season in the Caribbean, but Costa Rica is so far south that hurricanes are extremely rare there. Hurricanes are rare from around 10 degrees north to 10 degrees south latitude because the [Coriolis effect](#) isn't strong enough to give winds the counterclockwise motion that helps organize thunderstorm clusters into tropical depressions that can [grow into hurricanes.](#)" [Read more.](#)
